

Here is a **one-page project outline** synthesizing the entire CST:JPP framework for clarity and presentation:

CST:JPP — Catholic Social Teaching: Judgment & Prudence Praxis

A Framework for Ethical Agency in Complex Fields

PROJECT OVERVIEW

CST:JPP is a field-tested operational framework that integrates **Catholic Social Teaching** with **virtue ethics, systems thinking, and embodied judgment** to guide decision-making under pressure. It is designed for operators, leaders, and practitioners who must act with clarity, proportionality, and restraint in high-stakes environments.

CORE PURPOSE

To equip practitioners with:

- A **shared moral-operational language**
- A **repeatable decision-making sequence**
- **Case-based training** in ethical restraint
- **Tools for post-action reflection and integration**
